AIRBAG U-TYPE (NON-SEAL) PACKAGING & INFLATING INSTRUCTIONS

By Mike Josiah and the Technical Staff at UniNet

1. Set the pressure on the air gun to 12 PSI.

Inflate the bag by inserting the air gun nozzle into the center fill port of the bag as shown

2. Insert the cartridge into the bag

3. Hold the outer edge of the bag into the center of the bag to lock the cartridge in place.

Place the cartridge in the box.

When in a properly sized box, there is no need for any further packing materials.
